

Southport

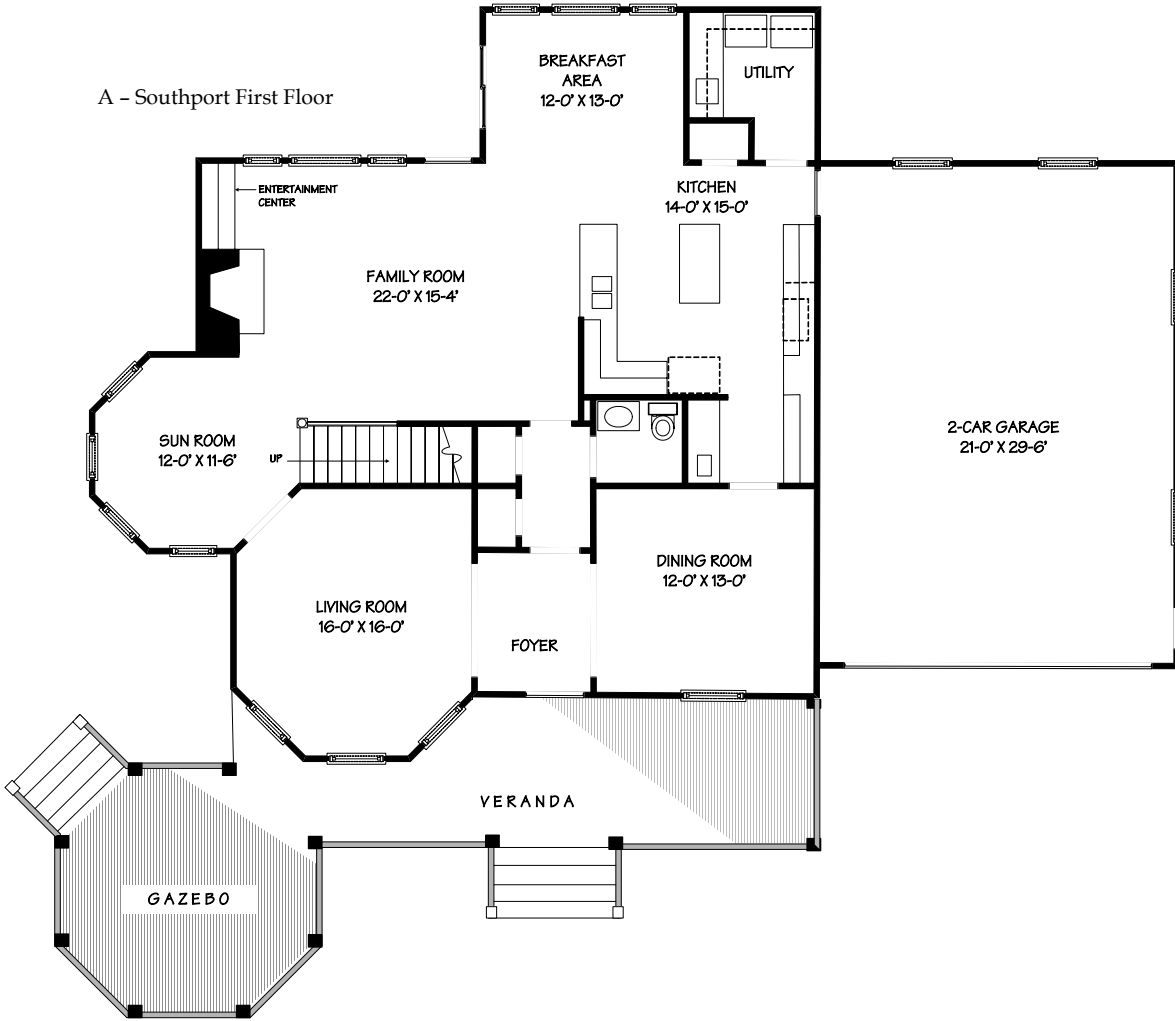

If you have not seen the movie "Crimes of the Heart," you must. The Victorian home refurbished by the set designer on location in Southport, North Carolina, is the inspiration for my rendition. The cupola, the turret, the gazebo, the stained-glass windows, the porches, and the delicate detail all accurately portray the Victorian period, along with a floor plan for today. Welcome home to The Southport.

Specifications:

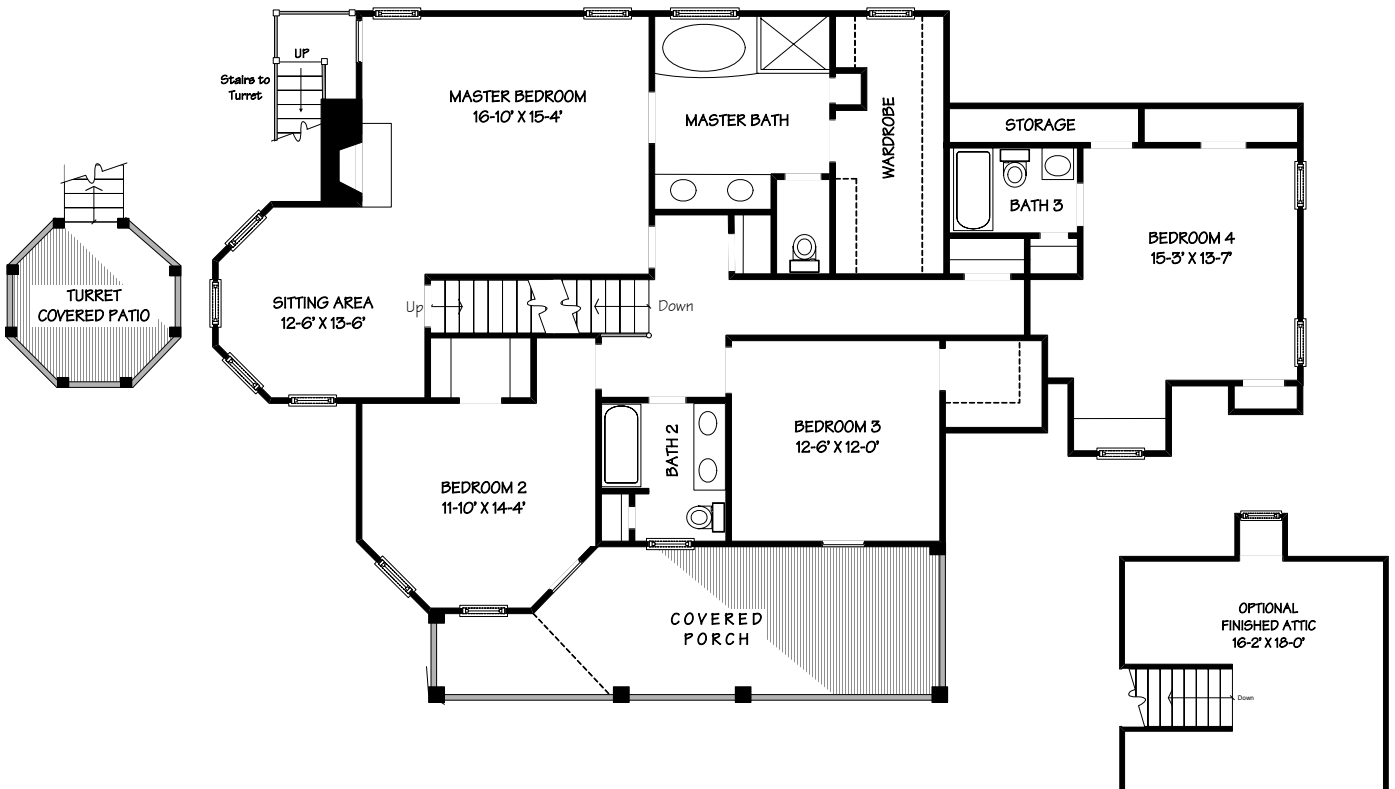

Square Footage	3131	Laundry	First Floor
